

## REACH declaration

Elho is manufacturer of synthetic flowerpots, thus in the sense of reach called a downstream user. The products we supply to you are solely non-chemical products. For that elho is neither obligatory for registration nor for the creation of material safety data sheets.

Furthermore, we will immediately inform you in correspondence to reach – article 33 – if any substance of content (as from a content of > 0.1%) in our goods will be classified alarming by the European Agency for Chemicals ECHA. Based on the current status, however, we do not expect such an incidence.

Independent of that fact, we are intensively pursuing the realization of reach on the part of our suppliers; we do that in our own interest and in order to guarantee a high level of product safety for our customers. We only purchase reach registered materials and ask for this reach information in each purchase order we provide.

We continuously process all required reach regulations and reach obligations.

Kind regards,

Olaf Elderenbosch  
Managing director
