# Collezione Struttura

---

The luxurious appearance of natural clay in a unique, handmade lightweight planter. The new Collezione Struttura by Luca Lifestyle blends in with the environment thanks to its natural appearance.

High-quality craftsmanship combined with the use of only the very best materials form the basis of this exclusive line. The organic shapes and natural colours fit perfectly indoors as well as in an outdoor space, for example a terrace.

The variety of sizes and shapes ensure that there is a suitable product in every situation.

Thanks to the refined finish and details, the Struttura planters harmonize with plants or trees as well as the environment.

All Struttura Planters are handmade in our own certified production facility, which guarantees quality and durability. Thanks to our own production and quality control, we guarantee frost and UV resistance for 5 years.

# Collezione Grigio

---

Enjoy the best of two worlds with the Collezione Grigio: the robust look of concrete and the lightweight, yet maintenance-friendly character of plastic.

This Collezione consists of a unique range of flowerpots and planters made from glass-fibre reinforced plastic. This is an excellent material that not only makes the products lighter and thus easy to use, but it is also very strong and resistant to all weather conditions.

The Collezione Grigio consists of a large selection of shapes, colors and sizes. There is always an appropriate flowerpot or planter for your garden. This Collezione is also very suitable if you are looking for a large size. Because the material is exceptionally strong and durable, the products in this Collezione can be supplied in XXL sizes. Moreover, thanks to an intensive and careful development process, these pots have a beautiful and natural feel. The 'Concrete' look is especially unique in the market.

The combination of a very strong and lightweight pot with a beautiful and natural concrete look makes this Collezione an eye catcher in every garden!

# Collezione Argento

---

Is your personal style sleek and modern? Then the Collezione Argento is the perfect choice for you.

This Collezione consists of a series of high-quality planters, flowerpots and vases made from polyester and stone powder. This is a perfect combination of materials with superb characteristics that have proven their worth during the past 10 years. Luca Lifestyle has also devoted attention to the finish. The pots last for a long time and can withstand all weather conditions. Moreover, the products are exceptionally maintenance-friendly and easy to clean. They look as good as new even after many years.

The timeless products in this collection are easy to use, durable, modern and weatherproof. You can select from diverse shapes and various modern chic colors. There is always a suitable solution for your needs!

## Characteristics Collezione Argento

---

- Polyester and stone powder
- Sleek and modern
- Own certified production
- Handmade
- Exceptionally strong and durable
- Highly colorfast
- Can be used indoors or outdoors
- Easy to clean
- Maintenance-friendly

# Collezione Marrone

---

Serenity, harmony and the warm color of wood: the characteristics that make this collection unique.

By nature, wood has a lovely look; it is strong, durable, lightweight and environment-friendly. With the wooden flowerpots and planters of the Marrone series, you create a simple and natural atmosphere. Because the products are made from recycled wood, every product is unique. Every piece of wood has its own story and therefore, every Marrone planter brings a bit of history into your home. Furthermore, recycled wood is durable, sturdy and solid.

In addition, wood is a very environment-friendly material. We don't need a lot of energy to produce and process wood. Moreover, we use only recycled wood so no need to fell any trees for our products.

Purely nature! Just how relaxed do you want to be when enjoying yourself?
